| 3 bulk pallets | <del>1320 €</del> | 1119 € |

## STANDARD RATES - 640 kg Offer on request

The price for a 640 kg pallet is less advantageous than for a 1000 kg pallet for the following reasons:

- The footprint (on your premises and on the lorry) is the same for 640 kg as for 1000 kg.
- The handling time for a 640 kg pallet is the same as for 1000 kg pallet.
- The energy used to handle and transport a 640 kg pallet is the same as for 1000 kg pallet.

The CO<sub>2</sub> balance is therefore worse with the 640 kg pallet.
